What can a neighborhood association do for you?

The purpose of a neighborhood association is to create a strong sense of community through meetings and social events. A neighborhood association can be an avenue of communication to the city government focusing on issues that the neighborhood faces. Most importantly, a neighborhood association is a great way to meet people and make friends.

The Haseltine Hills Alliance is always looking for new neighbors who want to pitch in and make Richland Center a better place to live. The Alliance is also looking for new allies in other neighborhoods to build a larger network of neighborhood associations.
